

# WHY IS IT

The name "Louis Meyers" stands for so much in the kid glove market today? Years ago Mr. Meyers started out in the glove business with the idea of establishing a reputation in the making of Kid Gloves. By a personal oversight of his factories he has brought the efficiency of his employees up to a very high standard. He has kept in close touch with his trade, taking advantage of every suggestion for the improvement of his product. He has employed the highest skill to be had in the selection of the skins. As a result where is he today? His ambition has been realized and "Meyers Make" Gloves have a reputation second to none in this country.
